

Caiden Williams

(717) 331-9577 | Waynesboro, PA | caidenwilliams45@gmail.com | <https://caw8592.github.io/>

Objective: Seeking a Computer Science Co-op/Internship to apply my skills in a real-world setting while working with a team of like-minded individuals. Positions may include: **Back-end, Software Engineer, and Data Engineer**. Available starting **May 2025**.

Education: **Rochester Institute of Technology** **Rochester, NY**
Bachelor of Science in Computer Science Expected: May, 2027
GPA: 3.44

Skills: **Programming Languages:** Java, Python, C, SQL
Other: Proficient with Git, LaTeX, Rest, Spring, Angular, Seaborn, and Pandas. Excels in team settings and stressful environments. Quickly picks up programming languages, tools and concepts. Consistently thinks critically, and works efficiently. Experience with AI and data mining techniques.

Projects: **Fundraising Website** **Fall, 2023**

- Worked with 4 other students to create a fundraising website using Angular and the Spring Framework.
- Designed the back-end model and persistence packages. This entailed a deep understanding of the spring framework, and utilizing JSON files to maintain consistency between instances.
- Optimized JSON files to reduce storage and increase startup speeds.

Database Website **Spring, 2024**

- Participated in the creation of a website that utilized an SQL database designed and maintained entirely by the team.
- Designed the database and create the Java controller to query it. This involved designing 15+ tables and 50+ queries to be called by several controller classes utilizing the Spring Framework.
- Optimized each query to reduce traffic between front and back ends and each table to reduce redundant data.

Interpreter **Fall, 2024**

- Collaborated with other students to create an interpreter that interpreted an arbitrary language into Java. To do this we had 3 phases: a Tokenizer, a Parser to parse the tokens, and a validation routine that validated the parse tree.
- Organized the team provide support in areas where we needed improvement. With my help the team finished every phase at least a week early and ended the project with a 100%.

Work Experience: **Rochester Institute of Technology** **Rochester, NY**
Student Dining Manager **October, 2022 – Present**

- Planned shifts that significantly maximized workflow
- Lead shifts of 10 or more workers

Dairy Queen **Waynesboro, PA**
Store Manager **August, 2020 – August, 2024**

- Effectively trained upwards of 20 employees
- Lead interviews
- Cataloged and ordered supplies
- Performed various IT duties around the store
